Application/Control Number: 09/757,828

Art Unit: 2874

This Office action is responsive to applicant's amendment filed on June 13, 2002. Claim 97 has been canceled by the amendment, leaving claims 73-96 and 98 pending in the application. The previously applied 35 U.S.C. § 112, second paragraph, rejection has been obviated by the June 13, 2002, amendment, and the previously applied provisional double patenting rejection has been obviated by the cancellation of claim 97. Since claim 94 was made dependent upon claim 73 by the June 13, 2002, amendment, the previously applied 35 U.S.C. § 102(b) rejection has likewise been obviated. Further search by the Examiner has uncovered no prior art any more relevant to the claims than that already made of record herein. Therefore, for the reasons stated on page 4 of the previous Office action, claims 73-96 and 98 herein are allowed.

The Information Disclosure Statement filed on June 13, 2002, has been considered by the Examiner (note the attached initialed copy of page 1 of the IDS). Notice that two of the listed copending applications (10/162,235 and 10/119,296) are still undergoing preexamination processing and are not available for inspection. With respect to these two unavailable applications, the Examiner is particularly taken by the statement (in the IDS) that the "applications are, as filed, identical to the present application as filed". It would thus appear that there may be potential issues of double patenting that the Examiner cannot at present ascertain. It would also thus appear that these two unavailable applications may need to be included in the requested interference with U.S. Patent 6,014,488. Although the claims of the present application are now allowable and in condition to proceed with an interference, such an interference cannot be instituted until the above-identified issues (regarding the two unavailable

Application/Control Number: 09/757,828

Art Unit: 2874

Page 3

submitting, in response to this Office action, copies of the claims filed in these two

applications) are satisfactorily resolved. Applicant can help expedite this process by

unavailable applications, and by affirmatively stating whether or not these two

unavailable applications should be included in the interference. Applicant is also

welcomed to submit (as discussed informally by telephone with applicant's

representative) a proposed outline, for purposes of interference, as to how claims of the

application(s) correspond or do not correspond to the subject matter of the proposed

interference.

This application is in condition for allowance except for the following formal

matters: the issues discussed in the immediately preceding paragraph.

Prosecution on the merits is closed in accordance with the practice under Ex

parte Quayle, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire TWO (2)

**MONTHS** from the mailing date of this letter.

Any inquiry concerning the merits of this communication should be directed to

Examiner John D. Lee at telephone number (703) 308-4886. Any inquiry of a general or

clerical nature (i.e. a request for a missing form or paper, etc.) should be directed to the

Technology Center 2800 receptionist at telephone number (703) 308-0956, to the

technical support staff supervisor (Team 2) at telephone number (703) 308-3072, or to

the Technology Center 2800 Customer Service Office at telephone number (703) 306-

3329.
